# MINETT & CO.,

## Copal Varnish Manufacturers, No. 60 Pearl-St., New-York.

he great difficulty in Copal Varnishes, hitherto, has been, that the manufacturer has but or two sorts of Varnish for the purposes of the Artist, the Coach Painter and the Decorator. painter, unless he can command time, and choice of work, can possibly give to his labor an sarance of finish in the best style, or insure permanency, without a varnish suited to the job and.

#### To Coach Painters, House Decorators, &c.

Te have an EXTRA COACH BODY VARNISH, which we strongly recommend no ter (either coach or house) to be without, when he has a job which he wants to stand the of time and weather. It will not, however, be suitable for all purposes, or for a job in a thurry. It will stand unchanged the hottest or the coldest climate—as the southern part ir own States, the East or West Indies, Russia or the Canadas. It may be used also for y signs, expensive facias, and will stand sun, rain and exposure to the severest weather.

#### For Coach Bodies and Best Outside Work

have prepared an excellent and useful DRIER, which is so elastic that there is no danger cracking. This we believe to be the only drier that may be safely used in an emergency, large quantity, without diminishing the gloss, or interfering with the durability of the work, the slightest degree retarding or in any way affecting the polishing of our varnish. This leratum of the artist and the workman being now attainable, it is hoped that the use of non Japan—for no other reason than that it dries quickly—will be discontinued. The ion of Japan to varnish has spoiled many a job that would otherwise have done credit to workman.

#### On White Varnish.

astic Varnish is unsuitable for any work requiring durability, hardness, or fine finish. It is refore very improperly used in house painting, in steamboats, or on walls. It is also inapple to articles of white furniture, but is adapted to pictures and delicate work, on which quent renewal of the varnish may be required.

astic Varnish may be rubbed off surfaces like flour, and so easily, as to enable the artist to a picture. and free it entirely from any number of old coatings, any number of times, with-emoving or injuring the most delicate ground-work or hair-stroke of the painting. We a pure Mastic Varnish that will not bloom.

### White Outside Copal, and Coach-Picture Varnish.

the light straw color, which at first appears to belong to this varnish, ought not to deter the ter from its use, for, as the job hardens, the color dries out, and the longer it has been done, whiter and more transparent it becomes. The reverse of all this may be expected, if, as is ften the case, a soft, white, or milky varnish be used for the transitory effect of looking at the moment of finish. In a short time the varnish loses its gloss, cracks and rubs off.

#### Of White Inside Copal Varnish

have several sorts:—A quick-drying, solid polishing White Varnish, for white furniture, tre frames and small surfaces; a Varnish adapted for inside paint work, either large or 1 surface. This latter will bear rubbing and polishing, and allow the painter as much time 15 Carmay require to work and lead off. We have also a delicate flowing White Varnish, noted for polishing or rough usage. See our list.

ar Varnishes will always be in a pure state for the consumer, as they are varren, h. 218 rns containing from 280 to 600 gallons each, and ranging in number from No. Leventh separate places of storage. From this statement, persons favoring us with cours Pearl see the propriety of stating as explicitly as is practicable, the purposes for which is required, that they may be supplied with the kind best adapted to their unlets and the consumer.

Outside, Brown and Black Japan, Gold Size, &c. See our list.

# STREET DIRECTORY

OF

# THE CITY OF NEW YORK.

(CORRECTED JUNE 1, 1850.)

Entered according to Act of Congress, in the year 1850, by John Doggett Jr., in the Clerk's Office of the District Court of the United States for the Southern District of New York.

### EXPLANATION.

If you wish to find the location of any dwelling house or store,—for instance, No. 80 Allen street. on consulting the Street Directory, you will observe that 66 Allen is on the right-hand of that street and on the corner of Grand, and 86 Allen on the right-hand corner of Broome: hence the desired number, 80 Allen, will be on the right-hand side of Allen street, between Grand and Broome.

Or suppose that you are going up Broadway and wish to take a cross street so as to call at 128 Bowery; on examination (see Bowery) of the corner numbers in the Bowery, you will observe that 129 Bowery is on the corner of Bowery and Grand;—hence, by passing from Broadway through Grand street to the Bowery, you are opposite to the desired number, (128.)

Note.—Eleventh street is divided into East and West, as follows:—East Eleventh commences at Avenue 4th—West Eleventh, at Broadway. The streets above Twelfth street are divided by Avenue 5th, into East and West—as East Thirteenth, West Thirteenth—and the streets located as above described will be found, therefore, in this work under East and West. Some have supposed that Broadway divided these streets into East and West—but it is a mistake.

Mott's Iron Heaters, for Laundries and Public Houses; the Madeira Coal Air-tight Parlor Stove, improved for 1849; PROUTY & MEARS'S IMPROVED HOT AIR VENTI-LATING PORTABLE FURNACES. These furnaces are made upon an entirely new plan; and such is their internal arrangement, that the cold air is introduced, heated and discharged into the rooms in a mild, agreeable and

healthy state, free from all unpleasant smells and gases, not coming in contact as is usually the case—with any red-hot iron, whereby the oxygen is destroyed, and the air rendered poisonous. D. P. & Co. are also proprietors of Hanks' Improved Hot-Air Ventilating Furnace for warming Public and private buildingsof all kinds.

The peculiar improvement and operation of this apparatus is, that the heat as

Prouty and Mears' Portable Furnace. its temperature is reduced, passes down into pipes of a still lower temperature, and at the lowest passes off into the chimney. The air to be warmed is brought

first in contact with the pipes and conductors of the lowest temperature, and as it becomes warm and rises, is brought in contact with, and rises among pipes of a temperature continually and regularly increasing, until at

the highest it passes off into conductors leading to the Frooms. Thus the current of heat is directly contrary to the current of air passing into the apartments. Furnace being but about four feet in height is peculiarly

### OLIVER B. GOLDSMITH'S WRITING ROOMS. 289 BROADWAY,

(FIRST DOOR ABOVE THE IRVING HOUSE.)

"A few hints from a perfect Master are often of more service in developing the capacities of a Pupil, than the most protracted lessons from an inferior Teacher."-WILLIAM C. BRYANT.

The success which has attended Mr. G.'s system of teaching is, he may venture to say, almost proverbial. There is scarcely a city or town in the Union in which his pupils are not to be found, and not one perhaps, among the thousands whom he has taught, that would hesitate to attest to the value of his instruction.

To set forth the importance of writing a good hand—to point out the many advantages, social and pecuniary, of being a rapid and expert penman, would be to repeat a thrice-told tale.

Since postage was reduced to a nominal charge in this country and in England, literary and friendly correspondence has been greatly extended, and our mail bags bear witness that we are becoming an

epistolary people.

Now, as time is money, and clearness and precision are all-important in every transaction of life, is it not essential that rapidity of execution and unmistakable legibility should be at the command of every hand that holds a Pen? The offices of friendship, the exigencies of business in life, the power to secure employment, and the daily bread of thousands are involved in this simple manner of writing

a good hand.
In consideration of the above facts, is it not wise for all, "ladies included," to place themselves in a pleasant and sure way of becoming masters of the Pen, that telegraph of mind, which is said to be

"mightier than the sword?"

Mr. G. has spacious and pleasant rooms, for either classes or private instruction, and invites both citizens and strangers to call and examine his specimens of the Caligraphic art, without fear of intrusion.

#### GEMS OF PENMANSHIP.

Just Published, a small edition of "Goldsmith's Gems of Penmanship." This volume is of quarto size, contains twenty plates of plain and ornamental Writing and Flourishing, fac-similes of the Author's own hand, with ample instructions, making it a thorough "self-guide" to the Caligraphic art in all its branches. Price, \$1.50.

An article of the most exquisite finish, manufactured exclusively for the subscriber, with improved silver holders and Pencil attached. Price, Gentlemen's Pens, \$2.50; Ladies' Do., \$1.50.

#### CRITICAL REMARKS

ON THE GEMS OF PENMANSHIP AND THE AUTHOR'S SKILL AS A PENMAN AND TEACHER OF HIS ART.

Extract of a letter from the Hon. John Q. Adams, Ex-President of the United States.

The volume is executed with great elegance, and is among the choicest specimens of Penmanship that I have ever seen. From the Sunday Dispatch.

Mr. Goldsmith is par excellence the Pennan of America. He certainly stands alone, unapproached, in this country, both in the executive department of his art, and as an instructor. His pupils rank among the finest pennen in this community, and we presume that the same may be said of other cities and towns which he has visited in his professional tours. The first men in the United States, including the late John Quincy Adams, Hon. Abbott Lawrence, and many others, have referred in the most complimentary terms to his handwriting, as exhibited in his "Gems of Penmanship," a new, cheap edition of which he has recently published.

#### From the New York Tribune.

This work embraces the author's mercantile system, and contains various examples of the art, executed by Mr. Goldsmith in a style of masterly elegance and beauty. It also contains his Lecture on the Pen, delivered originally at Clinton Hall—a production as useful as it is ingenious and interesting.

From the Evening Mirror.

This is decidedly the most beautiful, useful and comprehensive work of the kind ever published in this country. The system by which Mr. Goldsmith has gained such a high reputation as a teacher of penmanship, is clearly laid down and exquisitely illustrated by examples in this volume

#### From the New York Sun.

We have seldom examined a work of greater beauty. Its utility as a complete instructor, renders it peculiarly serviceable to persons who desire to improve their handwriting.

#### From the New York Commercial Advertiser.

It is illustrated with numerous fac-similes from Mr. Goldsmith's pen, which, for freeness of the style of handwriting, beauty of the flourishing, and general neatness of the design, we think excel anything of the kind we have ever seen.

From the Evening Post.

"Goldsmith's Gems of Penmanship," is a volume of beautiful examples of chirography, just published by O. B. Goldsmith, of this city. The variety, facility, and elegance of the various styles of the handwriting, of which he gives us specimens, are really surprising. The volume is worthy a place in any library, as a sample of the achievements of the pen.

### BRADY'S NATIONAL GALLERY OF DAGUERREOTYPES

This collection embraces some of the most distinguished men of this country. The President and Cabinet, also the late President Polk and his Cabinet, Members of the United States Senate and House of Representatives, Judges of the Supreme Court at Washington, and many other ominent persons are included in this Gallery. The Proprietor being much of his time in Washington, has the advantage of adding to these portraits any others that may interest the public. This establishment is one of the most extensive in the world, its facilities for the production of portraits by the Daguerrean art being unrivalled. It now occupies two large buildings, 205 and 207 Broadway. The operating department is arranged in the most scientific manner, and directed by persons of acknowledged skill in the profession. In the department arranged for copying paintings, daguerreotypes, engravings, statuary, &c., the light and instruments have been expressly designed for this purpose. It is the aim of the proprietor to render in every part of his business that attention which the public are entitled to from the patronage he has received. At the annual exhibitions of the American Institute for five years, the pictures from this establishment have received the first prize, consisting of a silver medal. The last year the first gold medal ever awarded to Daguerreotypes was bestowed on the pictures from this Gallery. The portraits taken for the "Gallery of Illustrious Americans," a work so favorably received throughout the United States, are engraved from these Daguerreotypes. Strangers and citizens will be interested and pleased by devoting an hour to the inspection of Brady's National Gallery, Nos. 205 and 207 Broadway, corner of Fulton-street, New York.
